For further protection, we recommend placing a new probe cover in the thermometer probe to protect this area by cleaning the thermometer body. The thermometer will be heard once, the operating tabs will appear on the screen, then the green light ExacTemp flash, indicating the consistent probe position. Made in Mexico This product is manufactured by Kaz USA, Inc. Braun PRO 6000... Emissions test Compliance Electromagnetic environment - Guidance The PRO 6000 uses RF energy only for... Specifications Visual temperature range: 68-108°F (20-42.2°C) Standard temperature range: 50-104°F (10-40°C) Resolution 0.1°F or °C Precision for temperature range shown: ±0.4°F (±0.2°C) (35.0°C-42°C) (95°F - 107.6°F) ±0.5°F (±0.0.0.3°C) Lifecycle Processes of IEC 62366 :2007 (IEC601-1-6) Medical Devices -Application of usability engineering to... Page 17 The Welch Allyn Vital Signs compatible charging station or device can be used with the Welch Allyn service tool to modify the settings in the thermometer. Page 31 Guidance and manufacturing declaration- electromagnetic immunity The PRO 6000 is designed for use in the Electromagnetic specified below. Note: Always press the Measure Measure Botine Taking a measure. For the best performance, we recommend the alkaline batteries of Duracell. Attach the new tip of the probe from the probe directly to the box, then take out the term. Página 13 Press and release the measured boton. Using the Braun Pro 6000 temperature medicine, eliminated the crib themeter grabbing the terminal at the base and rotating. Página 4 2. 14.7 Replacement of the batteries The term is supplied with two batteries of 1.5 V type Aa (LR 6). Á.Á. Do not use dats, perforated, dirty or poor adjustment probe covers. 9. To get more information about cookies and how to change their preferences, read our privacy policy. Under license of the registered trademark "Braun". The term will ignite automatically. To mount the crib, the following elements are needed: á é á, - á é . do not reuse the covers of the probe. Use a Há °Medo or cleaning with cleaning solution of the approved cleaning solutions. "Braun" is a registered trademark of Braun GmbH, Kronberg, Germany. However, there are special situations in which a terminal meter should not be used. 5.5 Body temperature Normal body temperature is a range. Página 2 á © 2015 Kaz USA, Inc. Components of the Braun Thermoscan pack Ravenal reference guide, Welch Allyn service tool software and Welch Allyn Guide tools tools for service tools. Página 26 14.5 Remove and install the box of the carrier probe remove the crib themeter grabbing the terminal at the base and rotating. The service guide of service software and service tool is available on the CD provided with the Braun Pro 6000 term or from 11.5 Load setting for storage, loading and safety (optional) function A load station is available for Braun Pro 6000. Warnings and precautions This thermometer is only for professional use. Insert new batteries when the battery symbol starts to flash on the screen (see 12.The Pro 6000 instrument is justified by Kaz to be free of defects in material and labor under normal use and service for a three -year period from the date of delivery to the first professional user who buys the instrument. Thermoscan is a registered trademark of Helen de Troy Limited. Página 32 Declaration of orientation and manufacturer: Electromagnetics emissions The pro 6000 is intended for its use in the electromagnetic environment specified below. MAINTENANCE AND SERVICE 14.1 Cleaning and disinfection of the window and probe probe only use disposable probe covers braun thermoscan. If an error persists, ... the timer can be stopped at any time by pressing the timer boton or applying a probe cover. Care that the lens window of the probe is clean and dry before use. Página 22 14. The timer is automatically turned off 5 seconds after 60 seconds. The fingerprints, the earwax, the dust and other dirt components reduce the transparency of the tip and result in lower temperature measurements. Normal ranges per axillary site 1, 2 95.6 - 99.4 ° F ... Once the desired configuration is selected, click on the Save boton to send the configuration to the Braun term and close the box. Página 24 second is necessary, clean the body of the themeter and the cradle after the instructions below. Elements of the Batteria The Full Batteria: Indicates that the batter Of the usable batterous capacity, the low batteria, indicates that the battery is between 30% and 10% of the batterous batterous capacity of the batteric: the battery is between 10% and 1% of the usable ones . . Follow the instructions for to the advanced Braun Pro 6000 configuration using the Welch Allyn service tool. Página 18 to restore the default configuration of fabrica, click Restore the default values. Página 20 12. Contraindications Cloth studies have shown that the Braun Thermoscan term #####
